Dear Mr. Simon:

Earlier this week you were given two copies of the working draft Work Plan for the Characterization of Radioactive Contamination at 316 East Illinois Street in Chicago, Illinois. We made some minor modifications and corrected some typographic errors in the Working Draft and have enclosed two copies of the Draft Final Work Plan for your review and comment. We will issue the Final Work Plan a few days after receiving your comments on the Draft Final.

We are now planning to begin the field work on October 10th and would appreciate your prompt consideration of the Work Plan.

Sincerely yours,

Vern C. Rogers
